

STATEMENT OF SUBSTANCE OF INTERVIEW
U.S. Application No. 09/317,986

non-Newtonian value of the RYTON products lies within Applicant's range, the Examiner stated that then there would not be a basis for unexpected results but if the value lies outside Applicant's range but within Fukata's range, Applicant has a basis to provide support for unexpected results, but such unexpected results must be established.

The Examiner was kind enough to indicate that another interview would be permitted to discuss the results if there were any issues as to exactly what showings had been made.

It is respectfully submitted that the instant STATEMENT OF SUBSTANCE OF INTERVIEW complies with the requirements of 37 C.F.R. §§1.2 and 1.133 and MPEP §713.04.

It is believed that no petition or fee is required. However, if the USPTO deems otherwise, Applicant hereby petitions for any extension of time which may be required to maintain the pendency of this case, and any required fee, except for the Issue Fee, for such extension is to be charged to Deposit Account No. 19-4880.
